GENERAL INFORMATION

DAILY ACTIVITIES

Deep Dive workshops are designed to be a week in length and as such have 5 overarching themes, one for each day of the school week. Each theme has 2-3 lessons. The Workshop Roadmap is designed for students to follow along with and track their progress. If you are able, we recommend printing the Workshop Roadmap, as well as the educational materials listed as "to print".

ZOOM

Saltwater Classroom Virtual Workshops incorporate Zoom programming to facilitate connection and strengthen education. Participants are asked to complete (or at least start) a lesson before a Zoom event.

The majority of Zoom meetings have been scheduled ahead of time, however additional times will be added based on participants' individual schedules. Find pre-scheduled times on the Roadmap or here. Following registration, adults will receive a survey with best times for Zoom for participants and the SC Team will try to fit as many schedules as possible.

View the SC Zoom Etiquette Guide   *(please go over this guide with participants)*

SC PORTAL

Participants will access all educational material and Zoom links through the SC Portal found at mysaltwaterclassroom.com. First step is creating an account. Use email address from registration and create your password *(simple is okay and write it down for participants!)*. All accounts created must be approved and granted access by SC administrators.

Familiarize yourself and participants with the structure and layout of the SC Portal. To help participants learn their way around the portal have them complete the following scavenger hunt:

- Find where Zoom times are posted
- Find where lessons and activities are posted
- Find an example of a "hands-on lesson"
- Check out the Connect board, this is where students can post questions, comments, stories, etc. — *you can have fun with it here!*
- Answer a "Hello!" post on the Connect board

JOIN AS A CLASS

For entire classrooms joining the workshop, we have a few special things including Partner Classrooms and tailored Zoom times. Find more information about joining as a class here.
